November 2014

PRESIDENT'S MESSAGE

Back to Basics November 18

Next week will be a busy one for the New York Chapter. Up first is our November Chapter meeting on Tuesday 11/18 where we are going back to basics with hydronic control valve applications. A session not to be missed by Engineers new to the industry and those looking for a refresher course. You can purchase tickets on our website or at the door.

On Thursday, 11/20 is the second Lecture Series's, which details the changes coming to the NYC Energy Code. If you missed last months packed presentation by the DOB, this meeting on 11/20 will cover each IECC section in more detail. Limited seating is still available, please see website for details!

Thank you all for your continued support. This has been a great start to the year. I hope to see you next week!

Sincerely,
 Lorey Flick Roberts, PE, HBDP, LEED AP
 ASHRAE-NY President 2014-2015

NOVEMBER CHAPTER MEETING

Date & Time: November 18, 2014 5:30 pm - 7:30 pm

Location: Club 101 - 101 Park Avenue, New York, NY, 10178

Topic: Automatic Flow Control Valves

Join us for November Chapter Meeting Topic: Automatic Flow Control Valves: "Benefitting the emerging methods of engineering hydronic systems in areas of performance and Commissioning"

ASHRAE History Night

GREAT SUCCESS AT ASHRAE YEA TOUR

ASHRAE YEA hosted a tour at Mechosystems Headquarters in Long Island City on October 28th. The event was a huge success with over 35 people attending. The president of Mechosystems, Jan Berman, led the tour and explained how he obtained LEED Gold certification and how his products help to obtain LEED points. After the tour we had a great networking event with food and beverages. At the end the night, 11 people joined the LEED study group, and 4 joined the BIM study group. Attendees were ASHRAE student members, YEA members, and regular members. The tour received a lot of positive feedback. Many attendees are looking forward to joining more YEA events in the future!

LECTURE SERIES

Lecture 2: NYC Energy Conservation Construction Code

During this session, attendees will learn about:

Code Highlights
Code Application
Real Life Building Code Complaint and Non Complaint

Small Issue with Large Code Impact
Compliance COMcheck
Understanding Technical Report Responsibility for Energy
Code Progress Inspection (TR-8 Form of NYC DOB)

Presented by:

Juan C. Toro, PE, HBDP, CPMP, LEED AP
Associate Principal
GEA Consulting Engineers
New York, NY

MESSAGE FROM THE STUDENT ACTIVITIES COMMITTEE

Thank you to all of the Students who attended the October Meeting. We matched last month's record attendance and you were part of it once again! Hopefully you are finding the meetings educational, resourceful and a great place to meet with industry professionals. Who knows, you might even be having a conversation with your future employer!

The YEA/students tour at MechoSystems in Long Island City was a huge success! Thank you to the students who attended and a very special thank you to Hao Luo for arranging the tour. I certainly learned a lot about shading that I didn't know before and I hope you did as well. There should be a picture of all of us posted in this newsletter.

If you need speakers to present at your ASHRAE Student Branch meetings, please let me know. I should be able to find the right person for the topics you are interested in.

Looking for Interns?

What better place to hire an intern than from one of the Student Branches where you will find dedicated students who are anxious to learn and show you their attributes?

Please contact me and let's get the students working!

Remember, it is the students that are our future. We must do everything possible to educate them and help them grow in the HVAC&R industry.

Please visit the "Student Testimonial" page on the website where former students express their gratitude to the NY Chapter and how ASHRAE has helped to advance their careers. You can read their testimonials [here](#).

You can contact me at (516) 756-1708 or at

mcastell@riversidehydronics.com

if you need further information or have any questions.

Respectfully,

Mitchell Castell

Student Activities Chair
